Servia Trying to Provoke an Outbreak-The Irish Cause Attracts Respectful Attention.

AFFAIRS GROWING SERIOUS. Via Mackay Beanest Cable to the Gazette.
LONDON, Oct. 31.—One hundred and eighty thousand Turkish troops are now in the field occupying strategic positions on the three threatened frontiers, and the force is said to consist exclusively of efficient troops with modern arms of precision, and to exceed the entire available field strength of the combined forces of the principalities. The bined forces of the principalities. The war-like demonstrations of Athens were answered to-day by orders for a fresh CONCENTRATION OF TURKISH TROOPS

on the Greek frontier. The reinforce-ments coming south from Albania are ordered to Artia on the west coast of the frontier line, and troops are embark-ing at Salonica for the same point. Another division is forming on the northeastern frontier. To-day's dispatches from Sophia indicate that Servia is forcing events and pro-voking the commencement of hostilities by the Bulgarians. Prince Alexander's troops are holding the roads and prevent-

A St. Petersburg commission of chari-ty has sent 8000 winter overcoats to the Bulgarian troops engaged in the present uprising against Turkey. The prevailing opinion among European states men is that the conference of the powers convened at Constantinople at the porte's request to decide upon the best mode of adjusting

his civil affairs. The Home-rule party has already held one-half of its county conventions in Ireland. In every one of these Mr. Parnell's dominence was not even contested. The result of the conventions has therefore been that thirty-eight Parnellite caudidates for parliamentary seats have been nominated to receive the Home-rule vote, and in every case the nomination was made without a single division. AN IRISH CLUB.
Prominent Irishmen in London have combined to establish in the metropolis an Irish club on a basis equally sound and respectable with that enjoyed by the best of the other great political clubs. This enterprise has already made considera-ble advance. Suitable premises near the parliament buildings and business interests have already, been se-

cured, but a great number of solid sub-scribers must yet be obtained before the Irish club can be assured of permanent

COMING TO AMERICA FOR PROTECTION.

The depression in the flax-spinning trade in England is very great. The great mill engaged in this industry in Leeds, and which employs 2000 operatives, is threatened with closure on account of SUCCESS OF GERMAN ENTERPRISE.

Since Germany adopted the policy of stimulating her industries her merchants have astonished Europe by their enterprise. German competition is already cutting deeply into even the screw-making trade of Birmingham. The mermaking trade of Birmingham. The merchants of Germany have recently memorialized the Germany chanceflor concerning the advantages England enjoys in maintaining her commerce in America, Africa and Asia, by having well-paid consuls at important points in those countries, while the German consuls are all merchants, who are often atiens and who all, as a rule, spend their time in looking after their own interests, without any desire to aid in the extension of the commerce of the empire. It is understood that Prince Bismarck has begun the work inspired by this memorial, and that he has replaced many of these merchants as consuls by well. any desire to aid in the extension of the commerce of the empire. It is understood that Prince Bismarck has begun the work inspired by this memorial, and that he has replaced many of these merchants as consuls by well-chosen state agents. He intends to follow

A SOURBEIGHTY GOES ASTRONOMY.

King Leopold, it is reported, has already found the Cougo free state a more ready found the Congo free state a more expensive enterprise than he can carry on unaided. His recent visit to Wiesbrden was made, it is said, for the purpose of inducing some one of the German princes to assume the savereignty of the Congo country in his stead. It has not yet secured the defreed substitute and this failure is attributed to Prince lismarck's opposition to having any of the German princes subdied with the weight which King Leopold, with all his enthusiasm, finds himself unable to continue
